

Amendments to the Specification

Please replace the paragraph in the Brief Description of Drawings on page 6 line 20, with the following new paragraph.

Figure 6 is a perspective view of the ~~opposite side of the~~ vent stop of ~~Figure 1~~ housing.

Amendments to the Claims

I claim:

1. (Currently amended) A ~~window~~ vent stop for use with a first non-movable sash member[,] and a second sliding sash member, ~~comprising~~ where said first sash member slides with respect to said second sash member, where the vent stop comprises:

a housing adapted to be disposed in a recess in said second non-movable sash member, said housing ~~including a cavity~~, formed by a face plate, a front wall, and a rear wall, and first and second sidewalls ~~joining said front and rear wall and~~ extending from said face plate, which thereby create a housing cavity;

a tumbler that is pivotally mounted ~~disposed~~ in said housing cavity, said tumbler being shaped to include an including a protruding apex which protrudes from said housing cavity when said tumbler is rotated from a retracted position to an extended position; at the top thereof, said tumbler further including a recessed portion for receiving an end of a spring which biases the tumbler to the extended position, where said tumbler then [;]

——— ~~a pivot means for pivotally securing said tumbler to said housing for movement between an extended position where a front face of said tumbler overlies an edge of said non-movable~~
